Can young hearts ease a rest spirit? On the shores of stunning Lake Geneva, Gina Remy is celebrating her brother's wedding – when the figure of a woman appears hovering above the water, beckoning to her. Ghostly visitations do not happen to Gina - a self-confessed control freak with her own successful property business, she prides herself on being level-headed. But as she is tormented by dreams and visions, her perfect life begins to unravel, and she knows she needs to help this ghost find peace if she's to get any of her own! Enter Ollie Martin, an Anglo-Swiss property developer who's sexy as hell and knows it. His arrogance annoys Gina, but he's the only one who will take her seriously... and the closer they come to understanding the quest the ghost has set for them, the closer they get to one another...
