From the darkness into a new era of terror and suspense... On the eve of a crucial election slick right-wing politician Will Burton hires Eva Roberts and Dan Bradley to track down attackers who beat his son into a coma at his family home. The right wing UKFirst party are ready to claim their first ever slice of real power, but as Eva and Dan get closer to the attacker the forces around Will Burton appear increasingly sinister. By helping save Burton's son Eva and Dan may be helping a far right political party to achieve its monstrous dream. Can they live with the consequences? Will arch-manipulator Peter Serge play his deadly hand? As their home town erupts in a fire-storm of violence, tension and protest, Dan and Eva have to do what is right in a mystery thriller where their own clients have never seemed so wrong. Divide and Rule is an adventure which brings Dan to the edge of his sanity... has Eva finally had enough of Dan's uncontrollable ways? Or will she need him now more than ever as blood flows on the streets? Tension rises as the darkness closes on Dan for maybe the last time in his life...

For some the scent of victory is in the air. For others failure and madness looms in the night. Death and danger seep in from every corner in this fight to the finish, action-packed novel.
