"Gamedrive" is not just another visual exposé of African wildlife, although it illustrates vividly, with great insight, Hinde's lifetime of experiences in the African bush. In many instances the photographs are sequential, supporting the narrative that is both informative and highly entertaining. Game reserves that have captured the soul of the author: Timbavati, Savuti, Etosha, Kalahari Gemsbok Park, Kruger National Park, Sabi Sand, come to life for the armchair gamewatcher or student of wildlife.
