Clean Inspirational Love Story + A precious baby = Western Mail Order Bride Romance at it's finest! Molly First has always felt unwanted. At 20, she was sold to a stranger by her father to settle a gambling debt. Six years later, after years of abuse at the hands of her husband, she is left widowed and frightened when he is murdered in cold blood by two men seeking their own payment of a debt long owed. Molly has nowhere to turn and no one to run to. Her new adventure begins when she sees a baby, abandoned by his parent on the church steps in town. She takes the baby as her own, not knowing if she will ever be capable of having her own after the abuse she has suffered. Now with a tiny baby in tow, she sets out to find her way in the world, answering an ad for a bride to come to the West and marry Wes Majors, a farm-owner and aspiring stage actor caring for his sister, niece and nephew. She can only hope against hope that her decision will not lead her into the arms of a brutal stranger, back into the insecurity and chaos of abuse and neglect, taking an innocent child with her into the unknown.
